ANNUAL REPORT

ON THE

WORKING OF THE HOSPITALS, DISPENSARIES, JAIL HOSPITALS, AND THE REGISTRATION OF VITAL STATISTICS IN THE CENTRAL INDIA AGENCY FOR THE YEAR 1920 AND ON VACCINATION FOR 1920-21.

I.—Medical Institutions.

1. The report deals with the following hospitals and dispensaries :—

(*a*) State (British) Public, including the agency hospitals and dispensaries.	6
(*b*) State (Native State) Public, including hospitals and dispensaries belonging to the Durbars in Central India excluding Gwalior State and minor States in the Gwalior Residency.	195
(*c*) State (British) Special, the Malwa Bhil Corps Hospital, Indore.	1
(*d*) Local Fund, the King Edward Hospital, Indore, and the Sadar Bazar Dispensary, Guna.	2
(*e*) Private non-aided, the hospitals and dispensaries belonging to the Canadian Presbyterian Mission.	5
(*f*) Railway dispensaries belonging to the Great Indian Peninsula Railway and the Bombay, Baroda and Central India Railway.	8

During the year 1920 seven new dispensaries were opened at the following places :—

Lawani in Indore State.
Female hospital in Datia Town.
Out-patient Dispensary in Datia Town.
Garauli Jagir in Bundelkhand Agency.
Sirmour in Baghelkhand Agency.
Para in the Southern States Agency.
Jhuknauda in the Southern States Agency.

The following institutions have been closed during the year under report :—

Rambhapur in the Southern States Agency.
Segaon in Indore State.
Sundersi in Indore State.

The total number of hospitals and dispensaries in Central India, excluding Gwalior State, is 217 compared with 216 in the previous year.

No returns for the year 1920 were received from Gwalior State, or from three hospitals of group (*e*).

2. The more important structural improvements made during the year in the various agencies are as below :—

Indore.—The Keegan ward of the King Edward Hospital has been rebuilt during the year, and was ready for occupation on 21st April 1921. The cost amounted to Rs. 25,000 and was met from the King Edward Hospital and Medical School Building Fund.

3. *Patients treated.*—The total number of patients treated during the year was 1,561,318 as against 1,884,038 of the previous year, *i.e.*, a decrease of 322,720. In-patients number 22,103 compared with 26,957 in 1919.

The number of operations performed was 76,808 compared with 72,422 in the previous year and 65,056 in 1918.

The large decrease in the number of patients treated in the year 1920 is mainly due to the fact that Gwalior figures are not included.

4. *Prevailing diseases.*—These were the same as during the previous years: under the six principal heads the numbers were as below :—

Malaria	2,39,030
Eye diseases	2,38,364
Skin diseases	1,64,825
Disorders of digestive system	1,44,342
Ulcers	1,06,482
Rheumatic affections	40,378

For syphilis the in-door patients numbered 644 against 922 of the previous year and out-door patients were 10,683 as compared with 14,163 of 1919.

The tuberculosis figures were 437 admissions and 3,283 out-patients against 669 and 3,733 respectively of previous year.

II.—Personnel.

Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S., was the Administrative Medical Officer in Central India from 1st January 1920 to 17th April 1920 and again from 18th October 1920 to 31st December 1920. During his absence on six months' privilege leave Major C. B. McConaghy, M.B., I.M.S., officiated for him from 18th April 1920 to 17th October 1920, in which period the office was temporarily transferred from Indore Residency to Sehore Cantonment.

The following Commissioned Medical Officers held charge in the various agencies :—

Name of		Period on duty.	
Appointments.	Incumbents.	From	To
1. Residency Surgeon, Indore	Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S.	1st January 1920.	17th April 1920.
	Major G. D. Franklin, O.B.E., I.M.S.	18th April 1920.	17th October 1920.
	Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S.	18th October 1920.	31st December 1920.
2. Residency Surgeon, Gwalior	Major J. Smalley, I.M.S.	8th September 1920.	31st December 1920.
3. Agency Surgeon in Bhopal, Sehore.	Major C. B. McConaghy, M.B., I.M.S.	1st January 1920.	31st December 1920.
4. Agency Surgeon in Baghelkhand, Sutna.	Major J. R. J. Tyrrell, M.B., I.M.S.	1st January 1920.	17th June 1920.
		17th July 1920	30th December 1920.
	Lieutenant-Colonel S. Hunt, M.B., I.M.S.	31st December 1920.	31st December 1920.
5. Agency Surgeon in Bundelkhand, Nowgong.	Major J. R. J. Tyrrell, M.B., I.M.S.	1st January 1920.	17th June 1920
		17th July 1920	31st December 1920.
6. Agency Surgeon in Southern States of Central India, Indore	Major G. D. Franklin O.B.E., I.M.S.	1st January 1920.	31st December 1920.

At Gwalior Senior grade 2nd class Sub-Assistant Surgeon S. P. Barve held charge of the Residency Surgeon's appointment from 2nd January 1920 to 7th September 1920, when he was relieved by Major J. Smalley, I.M.S.

Major J. R. J. Tyrrell, M.B., I.M.S., Agency Surgeon in Bundelkhand and Baghelkhand, was granted privilege leave for one month from 18th June 1920 to 17th July 1920 and Sub-Assistant Surgeons Shanker Dayal and V. N. Shevade held charge of the respective agencies during his absence.

There were 202 qualified medical men in Central India with qualifications as mentioned below :—

Indian Medical Service Officers	6
Graduates of Indian University	25
Mission Doctors	3
Sub-Assistant Surgeons	136
Private practitioners—	
Indian University Graduates	4
Sub-Assistant Surgeons	10
Lady Doctors—	
Mission	4
Indian University Graduates	4
Sub-Assistant Surgeons	10

In addition there were 109 senior compounders who hold charge of small dispensaries in the districts.

III.—Financial.

The total sum expended by the Durbars on their medical institutions amounted to Rs. 6,19,487-6-1 and the expenditure incurred from Imperial Revenues amounted to Rs. 76,370-8-1 including the pay of Agency Surgeons, the cost of upkeep of agency hospitals and dispensaries and a grant of Rs. 17,000 to the King Edward Hospital, Indore.

The percentage of expenditure on medical services to total revenue in all the States of Central India is still extremely small. It varies from 0·45 per cent. in one State up to 3·68 per cent. in another. The smaller States in some cases appear to realize their responsibilities and true interests in this respect better than those of the larger ones. While one of the larger States spends only 1·52 per cent. of its revenue on its Medical Department another very small State spends nearly 3·70 per cent.

Not very much progress is to be hoped for until State authorities realize that their true interests lie in laying out a very much larger percentage of their revenues on a comprehensive preventive and curative health department in each case.

IV.—Sanitation—Vital Statistics.

The vital statistics that are prepared are unreliable but the figures recorded serve for making comparison from year to year.

The births registered during the past three years are shown in the subjoined statement :—

Years.	Numbers.	Rate per 1,000 population.
1918	95,313	10·19
1919	67,643	7·27
1920 (excluding Gwalior State)	60,392	9·64

Figures for the principal States in Central India give the variations in the following table :—

States.	Population.	Births.	Rate per mille.
Indore	1007,856	15,593	15·5
Bhopal	730,383	13,115	17·9
Orchha	330,032	4,253	12·9
Panna	228,880	2,069	9·0

The deaths recorded in the principal States in Central India for the past four years are :—

States.	1917.	1918.	1919.	1920.
Indore . .	16,096	56,317	15,512	12,519
Bhopal . .	18,149	63,434	16,814	13,833
Orchha . .	4,296	21,083	5,662	3,320
Panna . .	3,294	10,652	12,767	2,723

The death-rate for the whole of Central India for the past three years has been :—

1918	330,363
1919	238,494
1920	58,156

The decrease in 1920 shown in above table is mainly due to the fact that Gwalior figures are not included and to the absence of epidemic influenza.

V.—Vaccination.

The number of vaccinations done was 137,999 against 232,828 done in the year 1919-20. Of these 137,410 are returned as primary and 589 as secondary.

Two hundred and twenty-two vaccinators were engaged during the year 1920-21.

Lymph is obtained from various centres. That prepared at Manpur in the Southern States. Agency was distributed to various states and agencies in Central India at a comparatively small cost. The Manpur lymph has given good results.

VI.—Epidemics.

A. Cholera.—The total number of cases from cholera was 405 with 278 deaths compared with 8,309 deaths in the previous year and 485 in 1918. The following table gives in detail the figures of deaths from cholera :—

Statement of deaths from Cholera in 1920.

Months.	Indore.	Gwalior.	Bhopal.	Bundelkhand.	Baghelkhand.	Southern States.	Malwa.	Total.
January	...	...	...	...	...	...	...	...
February	...	...	...	...	...	...	...	...
March	...	...	...	...	...	...	...	...
April	...	...	...	20	...	...	...	20
May	...	...	...	2	...	...	...	2
June	...	...	...	...	18	...	...	18
July	...	...	4	...	4	...	...	8
August	...	...	6	...	27	...	...	33
September	...	1	...	...	58	...	...	59
October	...	...	...	14	...	...	...	14
November	...	...	...	...	...	...	...	...
December	...	...	...	124	...	...	...	124
Total	...	1	10	160	107	...	...	278

The above table shows that most of the deaths were reported from Bundelkhand and Baghelkhand Agencies.

B. Plague.—During the year 3,821 deaths occurred from plague compared with 1,058 in 1919. The agencies affected were Gwalior, Baghelkhand, Bundelkhand and Bhopal. The infection was most serious in Bhopal and

Gwalior States. The detailed statement below shows the number of deaths reported in the year by months and agencies :—

Months.	Gwalior.	Baghelkhand.	Bundelkhand.	Bhopal.	Malwa.	Indore.	Total.
January	7	8	...	765	...	...	780
February	100	7	...	677	3	...	787
March	339	43	...	986	...	...	1,368
April	266	25	...	238	...	...	529
May	3	1	...	35	...	...	39
June	...	...	...	...	...	...	...
July	...	...	...	4	...	...	4
August	...	...	...	37	...	...	37
September	17	7	7	110	...	...	141
October	25	...	17	66	...	1	109
November	...	...	5	11	...	...	16
December	...	...	5	6	...	...	11
TOTAL	757	91	34	2,935	3	1	3,821

C. Small-pox.—474 cases and 87 deaths were reported from this disease, chiefly from Bundelkhand, Baghelkhand and Bhopal Agencies.

D. Influenza.—The places affected with influenza and the deaths caused thereby were as below :—

	Deaths.
Gwalior State	110
Baghelkhand Agency	537
Bundelkhand Agency	155
Bhopal Agency	77
Southern States Agency	13
Malwa Agency	44
Indore Agency	363
	1,299

VII.—LUNATICS AND LEPERS.

The only lunatic asylum in Central India is that in Indore City. It has accommodation for 12 patients.

There is accommodation for lepers in four asylums, *viz.*, Indore City, Sehore, Ujjain and Dhar. The asylum at Sehore is maintained by the Bhopal

Durbar under the supervision of the Agency Surgeon and the upkeep of the other three is provided for by the Durbars concerned.

The following table gives the numbers treated and the cost:—

Place.	Average number of inmates.	Cost per inmate per annum.
		Rs. A. P.
Bhopal (Sehore)	32·32	158 12 11
Gwalior (Ujjain)	Not	furnished.
Indore	32	49 2 2½
Dhar	26	151 6 8

VIII.—Jails.

Returns were received from 37 jails and lock-ups against 38 in 1919. The following table shows the population and death-rate in the five large jails. The returns of jails in Gwalior State were not received:—

Place.	Average population.	Number of deaths.	Rate per mile.
1. Indore State Central Jail . . .	335·61	23	68·5
2. Bhopal State Central Jail . . .	334·82	13	37·8
3. Rewa Central Jail	331·31	26	78·5
4. Central India Agency Jail (Government)	142·65	3	21·03
5. Nowgong District Jail (Government) .	80·50	8	99·3

The death-rates per mille for the past three years were as shown in the following statement:—

Jails.	1918.	1919.	1920.
1. Indore State Central Jail . . .	62·7	56·4	68·5
2. Rewa State Central Jail . . .	116·67	49·6	78·5
3. Bhopal Central Jail	78·12	57·8	37·8
4. Central India Agency Jail (Government)	6·7	6·6	21·03
5. Nowgong District Jail (Government) .	...	...	99·3

IX.—The Victoria Memorial Scholarship Fund.

Under the auspices of this fund dhais are trained at Indore, Gwalior, Ujjain and Bhopal where the number of pupils trained and the total expenditure incurred are as follows :—

Place.	Pupils.	Total expenditure during the year.	Cost per pupil.
		Rs. A. P.	Rs. A. P.
Indore King Edward Hospital . .	10	786 7 9	78 10 0
Gwalior	Information not furnished.		
Ujjain	Ditto.		
Bhopal	6	557 6 0	92 14 4

X.—The King Edward Hospital Medical School, Indore.

The number of students in the school on the 1st of January 1920 was 139, of whom 35 passed the final L. C. P. and S. examination (Bombay) after completing the course and two of these passed in addition the L. M. P. examination at Nagpur. One student passed the L. M. P. examination at Nagpur alone. In addition to those who passed seven other students studied up to the final and failed and the left the school, as they are permitted under the rules of the college to re-appear without undergoing further instructions. During the year 61 students were admitted, out of them 51 actually joined the school, leaving 147, as shown below, on the 31st December 1920 :—

Fourth-year students	48
Third-year students	13
Second-year students	35
First-year students	51
Total	147

Their origin is as below :—

Central India States' Scholars	41
Rajputana States' Scholars	23
Kashmir State Scholars	4
Government Scholars	3
Private students	76
Total	147

XI.—

I have to thank my Head Clerk Mr. Shanker Rao Chavan for his able and willing co-operation in the work of the office and his assistance in the preparation of this report.

W. R. BATTYE, *Lt.-Colonel,*
Administrative Medical Officer and Inspector-General of Prisons in Central India.

STATEMENT A.

Showing the number of dispensaries in the Central India Agency during the year 1920.
Population of the province 9,356,980.

Class of dispensary.	Number open on 31st December.	Number opened during the year.	Number closed during the year.	Number open on the last day of the year.	Remarks.
1	2	3	4	5	6
I.—State—Public . .	6	...	...	6	
II.—State—Special . .	191	7	3	195	
(*i*) Police . . .	1	...	...	1	
(*ii*) Forests and Surveys	...	...	...	...	
(*iii*) Canals . .	...	...	...	...	
(*iv*) Others . .	...	...	...	...	
III.—Local Fund . .	2	...	...	2	
IV.—Private aided . .	...	...	...	...	
V.—Private non-aided .	5	...	...	5	
VI.—Railway	8	...	...	8	
Total .	213	7	3	217	

Classes I and II.—These include all institutions maintained by Provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions should not be regarded as a reason for not classing it as "State" so long as Provincial and Imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

Class III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, should not be regarded as a reason for not classing it as a local fund dispensary so long as its existence is practically dependent upon local funds.

Class IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Class V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers should not be regarded as a reason for not treating it as a private non-aided dispensary.

Class VI.—Comprises all Railway dispensaries whether maintained by State railways or others.

Notes.

1. Transfers of dispensaries from one class to another should be noted in the column of "Remarks."
2. Hospitals of the Dufferin Fund should be shown as private aided or non-aided, as the case may be.
3. Dispensaries of a purely itinerant character should in no case be included in the statement.

ANNUAL REPORT

ON THE

Working of the Hospitals, Dispensaries Jail Hospitals and the Registration of Vital Statistics

IN THE

CENTRAL INDIA AGENCY

FOR THE YEAR 1921

and on Vaccination for 1921-22

By

C. B. McCONAGHY, M.B., Lieut.-Colonel,

ADMINISTRATIVE MEDICAL OFFICER AND INSPECTOR GENERAL OF PRISONS IN CENTRAL INDIA

Published by Authority

DELHI
SUPERINTENDENT GOVERNMENT PRINTING, INDIA
1923

Price Rs. 2 As. 12.

Annual Report on the working of the Hospitals, Dispensaries, Jail Hospitals, and the registration of vital statistics in the Central India Agency for the year 1921 and on vaccination for 1921-22.

I.—Medical Institutions.

1. The report deals with the following hospitals and dispensaries :—

(*a*) State (British) Public, including the agency hospitals and dispensaries	5
(*b*) State (Native State) Public, including hospitals and dispensaries belonging to the Durbars in Central India	205
(*c*) State (British) Special, the Malwa Bhil Corps Hospital, Indore	1
(*d*) Local Fund, the King Edward Hospital, Indore	1
(*e*) Private non-aided, the hospitals and dispensaries belonging to the Canadian Presbyterian Mission	5
(*f*) Railway dispensaries belonging to the Great Indian Peninsula Railway and the Bombay, Baroda and Central India Railway	7

During the year 1921 twelve new dispensaries were opened at the following places :—

Indore State { Sundersi. / Indore Central Jail.

Bundelkhand Agency.

Orchha State—State Military.

Datia State { Datia Palace. / Nadigaon. / Indargarh. / Unao.

Panna State—Birsingpur.

Charkhari State—Chandla.

Lughasi—Lughasi.

Baghelkhand Agency.

Rewa State { Rewa Police. / Sutna Stone and Lime Works.

None of the institutions existing last year have been closed during the year 1921, except that the Bhopal Darbar closed nine dispensaries in the district from 1st October 1921, but as some work was done in them during the nine months of the year, they have been taken as being in existence during the year under report.

Owing to the separation of the Gwalior Residency from the Central India Agency, the following institutions, which come in that Residency, have been omitted :—

Gwalior Residency Hospital.

Gwalior State Hospitals and Dispensaries.

Bagli State Hospitals.

The Sadar Bazar Dispensary, Guna.

The Minor States Dispensaries in Gwalior Residency.

Thus the total number of hospitals and dispensaries in Central India was 224 compared with 212 in the previous year.

2. The more important structural improvements made during the year are as below :—

Indore.—The operation theatre of the King Edward Hospital, Indóre, was thoroughly repaired and repainted; and the laboratory has been slightly extended.

Southern States Agency.—The in-patient ward providing accommodation for eight patients in the Jobat State Dispensary was completed during the year.

3. *Patients treated.*—The total number of patients treated during the year was 1,594,456 as against 1,561,318 of the year 1920, *i.e.*, an increase of 33,138. In-patients number 18,579 compared with 22,103 of the previous year.

The number of operations performed was 50,592 compared with 76,808 in the year 1920 and 72,422 in 1919.

The increase in the number of patients treated in 1921 is to some extent due to the addition of twelve new dispensaries.

4. *Prevailing diseases.*—These were the same as during the previous years: the numbers recorded under the six principal heads were as below :—

Malaria	262,509
Eye diseases	233,584
Skin diseases	147,757
Disorders of digestive system	135,711
Ulcers	108,356
Rheumatic affections	44,054

For syphilis the in-door patients numbered 465 against 644 of the previous year and out-door patients were 10,145 as compared with 10,683 in 1920.

The tuberculosis figures were 395 admissions and 2,907 out-patients against 437 and 3,283 respectively of the previous year.

5. *Outstanding features of the medical institutions.—King Edward Hospital, Indore.*—This institution continued to do good work as before in all its departments. Money is urgently required to bring the Hospital up to the extent of anything like a modern institution. This applies not only to the buildings and equipment, etc., but to facilities for the care of patients particularly with regard to nursing. A great deal of work has been and is done in this hospital and with the wealth of clinical material there is much scope; but the lack of money hampers the institution in many ways.

Indore State.—The Indore State Medical Department continued to make good progress particularly it was so in the following :—

Electric and Radium treatment.—The number of patients treated by this has been 1,027 during 1921 against 450 in 1920. Patients come from long distance to receive this treatment, as this is the only institution of the sort throughout India which can afford help to the middle and lower class.

Clinical Laboratory.—The cases bacteriologically examined during 1921 has been 1,179 against 660 in 1920; besides 898 samples of urine were examined for quantitative or microscopic analysis. The number of injections of Tuberculin and Salvarsan, etc., also increased from 400 in 1920 to 1,125 in 1921.

Rao Sanatorium.—By the appointment of an assistant surgeon in-charge of this institution the number of patients admitted during the year had been 47 against 13 in 1920. Some patients treated during the year were even from Bengal, Kathiawad, Central Provinces and Berar.

Bundelkhand and Baghelkhand Agencies.—On the whole, the dispensaries maintained from general revenues as well as by the Native States continued to remain in good condition and suitable for the work being carried out in them. The Agency Surgeon visited almost all the dispensaries in both the agencies and found that the quantity of work done, continues to be satisfactory.

The post of the Agency Surgeon in Baghelkhand Agency has been abolished from 1st October 1921 and the work connected to this Agency is being done by the Agency Surgeon in Bundelkhand.

Bhopal Agency.—The Agency Surgeon visited almost all the dispensaries in the Agency and found them all doing good work. There had been nothing noteworthy except the closing of the nine dispensaries by the Bhopal Darbar, mentioned above. A drainage scheme for Bhopal City is under construction.

Malwa Agency.—The medical institutions in this Agency have done satisfactory work during the year.

Southern States Agency.—The medical institutions in this Agency continued to do good work during the year. There has been nothing particular except the addition of an in-patient ward to the Jobat State Dispensary.

II.—Personnel.

Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S., was the Administrative Medical Officer in Central India from 1st to 27th January 1921 on which date he was transferred to Hyderabad and Lieutenant-Colonel W. R. Battye, D.S.O., B.Sc., M.S., I.M.S., held the appointment from 28th January 1921 to 31st December 1921.

The following Commissioned Medical Officers held charge in the various agencies:

Name of		Period on duty.	
Appointments.	Incumbents.	From	To
1. Residency Surgeon, Indore .	Lieutenant-Colonel F. A. Smith, M.D., D.P.H., I.M.S.	1st January 1921 .	27th January 1921.
	Major G. D. Franklin, O.B.E., I.M.S.	28th January 1921	31st December 1921.
2. Agency Surgeon in Bhopal, Sehore.	Lieutenant-Colonel C. B. McConaghy, M.B., I.M.S.	1st January 1921 .	14th April 1921.
	Major E. H. V. Hodge, I.M.S. .	15th April 1921 .	13th October 1921.
	Lieutenant-Colonel C. B. McConaghy, M.B., I.M.S.	14th October 1921 .	31st December 1921.
3. Agency Surgeon in Baghelkhand, Sutna.	Lieutenant-Colonel S. Hunt, M.B., I.M.S.	1st January 1921 .	13th January 1921.
	Major H. W. Pierpoint, O.B.E., I.M.S.	14th January 1921	30th September 19
(This appointment has been abolished and the medical charge of the Political Agent in Baghelkhand and his establishment and of the minor states in Baghelkhand has been added to that of the Agency Surgeon in Bundelkhand from 1st October 1921.)			
4. Agency Surgeon in Bundelkhand, Nowgong.	Lieutenant-Colonel J. R. J. Tyrrell, M.B., I.M.S.	1st January 1921 .	13th April 1921.
	Major H. W. Pierpoint, O.B.E., I.M.S.	14th April 1921 .	1st October 1921.
	Lieutenant-Colonel J. R. J. Tyrrell, M.B., I.M.S.	13th October 1921 .	31st December 1921.
5. Agency Surgeon in the Southern States of Central India, Indore.	Major G. D. Franklin, O.B.E., I.M.S.	1st January 1921 .	27th January 1921.
	Lieutenant-Colonel W. R. Battye, D.S.O., I.M.S.	28th January 1921 .	31st December 1921.

Owing to the separation of the Gwalior Residency from Central India the Residency Surgeon of that Residency is regarded as independent of the Administrative Medical Officer in Central India.

Lieutenant-Colonel C. B. McConaghy, M.B., I.M.S., was granted six months privilege leave from 15th April 1921 and Major E. H. V. Hodge, I.M.S., officiated for him during his absence.

Lieutenant-Colonel J. R. J. Tyrrell, M.B., I.M.S., was granted five months and twenty-four days privilege leave combined with furlough on average salary for six days from 14th April 1921 and Major H. W. Pierpoint, O.B.E., I.M.S., held charge of his duties.

Major H. W. Pierpoint, O.B.E., I.M.S., Agency Surgeon in Bundelkhand was deputed for X-ray training to Dehra Dun and Sub-Assistant Surgeon V. K. Phadke held charge of the office of the Agency Surgeon in Bundelkhand from 2nd to 12th October 1921.

There were 198 qualified medical men in Central India with qualifications as mentioned below :—

Indian Medical Service officers	4
Graduates of Indian University	28
Mission doctors	3
Sub-Assistant Surgeons	136
Private practitioners—	
Indian University Graduates	5
Sub-Assistant Surgeons	13
Lady Doctors—	
Mission	1
Indian University Graduates	2
Sub-Assistant Surgeons	6

In addition there were 102 senior compounders who held charge of small dispensaries in the districts.

III.—Financial.

The total sum expended by the Darbars on their medical institutions amounted to Rs. 7,02,288-0-4 and the expenditure incurred from Imperial Revenues amounted to Rs. 1,37,352-4-2 including pay of Agency Surgeons, the cost of up-keep of agency hospitals and dispensaries and a grant of Rs. 17,000 to the King Edward Hospital, Indore.

The percentage of expenditure on medical services to total revenue in all the States of Central India is still extremely small. It varies from 1·23 per cent. in one State up to 5 per cent. in another. The smaller States in some cases appear to realize their responsibilities and true interests in this respect better than those of the larger ones. While one of the larger States spends only 1·86 per cent. of its revenue on its medical department another small State spends nearly 5 per cent.

Not very much progress is to be hoped for until State authorities realize that their true interests lie in laying out a very much larger percentage of their revenues on a comprehensive preventive and curative health department in each case.

IV.—Sanitation-vital Statistics.

The vital statistics that were prepared are not very reliable but anyhow they serve for making comparison from year to year. The figures for Rewa State and some other States of Baghelkhand Agency were not available.

The statement below shows the births registered during the past three years :—

Years.	Numbers.	Rate per 1,000 population.
1919	67,643	7·27
1920	60,392	9·64
1921	71,113	11·86

The following table gives the variations in figures for the principal States in Central India :—

States.	Population.	Births.	Rate per mille.
Indore	1,151,573	16,650	14·5
Bhopal	692,448	13,598	19·6
Orchha	284,948	6,576	23·1
Panna	197,600	2,180	11·0

The deaths recorded in the principal States in Central India for the past four years were :—

States.	1918.	1919.	1920.	1921.
Indore	56,317	15,512	12,519	12,990
Bhopal	63,434	16,814	13,833	9,558
Orchha	21,083	5,662	3,320	4,378
Panna	10,652	12,767	2,723	2,840

The death rate for the whole of Central India for the past four years had been :—

1918	3,30,363
1919	2,38,494
1920	58,156
1921	58,914

V.—Vaccination.

During the year 1921-22, the number of vaccinations done was 141,164 against 137,999 done in the year before. Of these 140,990 were returned as primary and 174 as secondary.

Two hundred and twenty-five vaccinators were employed during the year 1921-22.

Lymph was obtained from various centres. The lymph prepared at Manpur in the Southern States Agency was distributed as before to the various States and Agencies in Central India at a comparatively small cost. It had given good results.

VI.—Epidemics.

A.—Cholera.—The total number of cases reported from cholera was 10,497 with 5,079 deaths compared with 278 deaths in the year 1920 and 8,309 in 1919. The figures of deaths reported from cholera are shown in detail in the statement below :—

Statement of deaths from Cholera in 1921.

Months.	Indore.	Bhopal.	Bundelkhand.	Baghelkhand.	Southern States.	Malwa.	Total.
January	...	...	...	...	...	...	...
February	...	...	...	...	...	...	...
March	...	...	...	12	...	...	12
April	...	...	16	215	...	...	231
May	240	124	534	253	171	131	1,453
June	410	510	183	259	186	172	1,720
July	...	114	24	102	110	25	375
August	...	155	33	139	401	8	736
September	...	9	11	4	365	...	389
October	...	...	75	...	88	...	163
November	...	...	...	...	...	...	...
December	...	...	...	...	...	...	...
Total	650	912	876	984	1,321	336	5,079

The above table shows that the deaths of cholera reported were from all the agencies of Central India; it was however most severe in the Southern States Agency. The cholera that prevailed in Central India in the year 1921 was somewhat of a severe type ; it began at the Ujjain fair (*Sangat ka Meia*) which was attended by about three-quarters of a million of pilgrims from almost all parts of India. From Ujjain the epidemic spread throughout Central India and many other parts of India. It began in the early part of May and lasted well into October. In Baghelkhand Agency there had been an independent outbreak before the Ujjain fair.

B.—Plague.—Plague was very mild throughout the year, and caused only 111 attacks and 64 deaths. The bulk of these occurred in Bhopal and Bundelkhand in the first two months of the year. The table below gives the number of deaths reported in the year by months and agencies :—

Months.	Bhopal.	Bundelkhand.	Baghelkhand.	Total.
January	13	13	...	26
February	8	19	...	27
March	...	...	...	...
April	...	3	...	3
May	...	...	...	...
June	...	...	...	...
July	...	...	...	...
August	...	...	...	...
September	1	...	...	1
October	...	...	2	2
November	...	...	5	5
December	...	...	...	...
Total	22	35	7	64

The other agencies, *i.e.*, Indore, Malwa and Southern States remained free from this disease throughout the year.

C.—Small-pox.—It accounted for only 122 attacks and 18 deaths, the bulk of which occurred in the month of April in the States of Indore and Bhopal and the Southern States of Central India.

D —Influenza.—It caused some anxiety in Bundelkhand and the Southern States Agencies of Central India, during the first five months of the year. It then died down. There were 2,789 seizures and 398 deaths. The places affected and the deaths reported from this disease were as below :—

	Deaths.
Bhopal Agency	60
Bundelkhand Agency	228
Baghelkhand	17
Southern States	93
	398

VII.—Lunatics and Lepers.

In Central India there is only one lunatic asylum in Indore City and it has accommodation for 12 patients. There had been nine lunatics on the 1st of January 1921 and three new cases were admitted during the year 1921. Out of the twelve lunatics one was cured, one released and two absconded, leaving eight at the end of the year.

There is accommodation for lepers in three asylums, *viz.*, Indore City, Sehore and Dhar. The asylum at Indore City is maintained by the Indore Darbar and is also supervised by the State officials; while in the case of the asylum at Sehore, it is maintained by the Bhopal Darbar under the supervision of the Agency Surgeon in Bhopal. The junior Sub-Assistant Surgeon attached to the Agency Hospital at Sehore very often visits the asylum and treats the patients kept there. The Handerson Memorial Leper Asylum at Dhar is conducted under the supervision of a Mission Doctor and the Dhar State pays only Rs. 3 as a capitation fee for each patient.

The following table shows the numbers treated in the three asylums and the cost incurred in maintaining them :—

Place.	Average number of inmates.	Cost per inmate per annum. Rs	A.	P.
Bhopal (Sehore)	33·07	142	4	9
Indore	28	58	2	10
Dhar	26	36	0	0

VIII.—Jails.

Returns for the year 1921 were received from 37 jails and lock-ups in Central India. The population and the death rate in the five large jails are shown in the following table :—

Place.	Average population	Number of deaths.	Rate per mille.
1. Indore State Central Jail	335·61	18	53·6
2. Bhopal State Central Jail	417·92	15	35·9
3. Rewa Central Jail	455·75	72	158·0
4. Central India Agency Jail, Indore (Government)	147·06	...	...
5. Nowgong, District Jail (Government)	98·52	3	30·5

The following statement shows the death rates per mille for the past three years in the five large jails :—

Jails.	1919.	1920.	1921.
1. Indore State Central Jail	56·4	68·5	53·6
2. Rewa State Central Jail	49·6	78·5	35·9
3. Bhopal State Central Jail	57·8	37·8	158·0
4. Central India Agency Jail, Indore (Government)	6·6	21·03	...
5. District Jail, Nowgong (Government)	...	99·3	30·5

IX.—The Victoria Memorial Scholarship Fund.

Under the auspices of this fund *dhais* are trained at Indore and Bhopal where the number of pupils trained and the total expenditure incurred were as below :—

Place.	Pupils.	Total expenditure during the year.	Cost per pupil.
		Rs. A. P.	Rs. A. P.
Indore King Edward Hospital	21	1,291 10 3	61 8 1
Bhopal	6	616 4 0	102 11 4

X.—The King Edward Hospital Medical School, Indore.

There had been 147 students in the Medical School on the 1st of January 1921, of whom 28 passed the final L. C. P. and S. examination (Bombay) after completing the course. In addition to those who passed, 21 other students studied up to the final but failed; and so they left the school as under the existing rules of the college they can re-appear without undergoing further instructions in the school. During 1921, 66 students were admitted out of them 62 actually joined the School, leaving 160, as shown below, on the 31st December 1921 :—

Fourth-year students	16
Third-year students	25
Second-year students	57
First year students	62
Total	160

Their origin was as below :—

Central India States' Scholars	26
Rajputana States' Scholars	15
Kashmir State Scholars	7
Government Scholars	2
Private students	110
Total	160

XI.

I have to thank my Head Clerk Mr. Shankar Rao Chavan for his able and willing co-operation in the work of the office and his assistance in the preparation of this report.

C. B. McCONAGHY, Lieutenant-Colonel,
Administrative Medical Officer and
Inspector-General of Prisons
in Central India.

STATEMENT A.

Showing the number of dispensaries in the Central India Agency, during the year 1921. Population of the province 5,997,023.

Class of dispensary.	Number open on 31st December.	Number opened during the year.	Number closed during the year.	Number opened on the last day of the year.	Remarks.
1	2	3	4	5	6
I.—State—Public	5	...	...	5	
II.—State—Special . . .	193	12	*9	196	* Bhopal State Dispensaries.
(*i*) Police	1	...	...	1	
(*ii*) Forests and Surveys . .	...	...	...	...	
(*iii*) Canals	...	...	...	...	
(*iv*) Others	...	...	...	...	
III.—Local Fund	1	...	...	1	
IV.—Private aided	...	...	...	...	
V.—Private non-aided	5	...	...	5	
VI.—Railway	7	...	...	7	
Total .	212	12	9	215	

Classes I and II.—These include all institutions maintained by provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions should not be regarded as a reason for not classing it as "State" so long as provincial and imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

Class III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, should not be regarded as a reason for not classing it as a local fund dispensary so long as its existence is practically dependent upon local funds.

Class IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Class V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers should not be regarded as a reason for not treating it as a private non-aided dispensary.

Class VI.—Comprises all railway dispensaries whether maintained by State railways or others.

NOTES.

1. Transfers of dispensaries from one class to another should be noted in the column of "remarks."
2. Hospitals of the Dufferin Fund should be shown as private aided or non-aided, as the case may be.
3. Dispensaries of a purely itinerant character should in no case be included in the statement.

INSTUC-

(1) Statement B is intended to comprise only those institutions from which full information can be expected. These are State-Public, Local
(2) The classification in column 3 should, accordingly, be into I, III, IV, of the classes shown in Statement A.
(3) In column 2 individual dispensaries should be shewn, the dispensaries being arranged by districts. The arrangements of district should be Female dispensaries. The whole statement will conclude with a provincial total for A.—General dispensaries, a provincial total for B.—
(4) In filling up columns 6, 7, 18, 19, 25, 26, 30 and 31 all persons under 10 years of age should be treated as children.
(5) The columns for 'total treated' (Nos. 4 to 8 and 23 to 37) include both those remaining from the previous year and those admitted during should not be counted 10 times, if he re-appears as fresh case he should be counted again.

ANNUAL REPORT

ON THE

WORKING OF THE HOSPITALS, DISPENSARIES, JAIL HOSPITALS, AND THE REGISTRATION OF VITAL STATISTICS IN THE CENTRAL INDIA AGENCY FOR THE YEAR 1922 AND ON VACCINATION FOR 1922-23.

I.—Medical Institutions.

1. The report deals with the following hospitals and dispensaries :—

(*a*) State (British) Public, including the agency hospitals and dispensaries.	5
(*b*) State (Native State) Public, including hospitals and dispensaries belonging to the Durbars in Central India.	196
(*c*) State (British) Special, the Malwa Bhil Corps Hospital, Indore.	1
(*d*) Local Fund, the King Edward Hospital, Indore ...	1
(*e*) Private non-aided, the hospitals and dispensaries belonging to the Canadian Presbyterian Mission.	5
(*f*) Railway dispensaries belonging to the Great Indian Peninsula Railway and the Bombay, Baroda and Central India Railway.	7

During the year 1922 three new dispensaries were opened at the following places :—

Baghelkhand Agency.	
Rewa State	Bandhogarh
	Ramnagar
	Mawganj

Besides the nine dispensaries closed by the Bhopal Durbar in October 1921, no mention of the following dispensaries which existed last year has been made in the returns received for 1922, from the Durbars concerned :—

Indore State	Indore State Bodyguard
Baghelkhand Agency	Sutna Stone and Lime Works, and Ravinagar.

Thus the total number of hospitals and dispensaries in Central India was 215 compared with 224 in the previous year.

2. The more important structural improvements made during the year are as below :—

Indore King Edward Hospital.—Five new blocks have been erected for compounders at the expense of the Building Fund. Some changes have been made in the X-Ray room by adding a dark room and a room for keeping accessories.

Sehore Agency Hospital.—Stables have been built for the vaccination calves. Rubberoid roofing to the Sub-Assistant Surgeon's quarters and to the main ward have been provided. A new kitchen house has been built. The hospital latrine has been moved back and a honey comb wall built around it.

Dewas Senior Branch.—Some repairs and additions were made to the hospital building at Dewas, Senior Branch, and a pucca well has been provided to the Bagod dispensary.

3. *Patients treated.*—The total number of patients treated during the year was 15,79,696 as against 15,94,456 of the year, *i.e.*, a decrease of 14,760.

In-patients number 20,826 compared with 18,579 of the previous year.

The number of operations performed was 59,554 compared with 50,592 in the year 1921 and 76,808 in the year 1920.

4. *Prevailing diseases.*—These were the same as during the previous years: the numbers recorded under the six principal heads were as below :—

Malaria	261,335
Eye diseases	238,994
Skin diseases	164,847
Disorders of digestive system	145,666
Ulcers	113,182
Rheumatic affections	46,941

For syphilis the in-door patients numbered 603 against 465 of the previous year and out-door patients were 9,527 as compared with 10,145 in 1921.

The tuberculosis figures were 592 admissions and 2,671 out-patients against 395 and 2,907 respectively of the previous year.

5. *Outstanding features of the medical institutions:—King Edward Hospital, Indore.*—This institution continued to do good work as before in all its departments. Money is urgently required to bring the hospital up to the extent of anything like a modern institution. This applies not only to the buildings and equipment, etc., but to facilities for the care of patients particularly with regard to nursing. A great deal of work has been and is done in this hospital and with the wealth of clinical material there is much scope; but the lack of money hampers the institution in many ways.

Indore State.—The Indore State Medical Department continued to make good progress; particularly it was so in the following :—

Electric and Radium treatment.—The number of patients treated by this has been 924 during 1922 against 1,027 in 1921. Patients come from long distances to receive this treatment, as this is the only institution of the sort which can afford help to the middle and lower classes.

Clinical Laboratory.—The cases bacteriologically examined during 1922 have been 2,093 against 1,179 in 1921; besides 1,336 samples of urine were examined quantitatively or microscopically. The number of injections of Tuberculin and Salvarsan, etc., also increased from 1,125 in 1,921 to 1,253 in 1922.

Rao Sanatorium.—An Assistant Surgeon was appointed in charge of this institution. The number of patients admitted during the year was 50 against 47 in 1921.

Bundelkhand and Baghelkhand Agencies.—On the whole, the dispensaries maintained from general revenues as well as by the Native States continued in good condition and suitable for the work being carried out in them. The Agency Surgeon visited almost all the dispensaries in both the Agencies and found that the quantity of work done continues to be satisfactory.

Major C. H. Smith, O.B.E., I.M.S., was appointed to the post of the Superintendent, Medical Department, Rewa State, on 18th April 1922. In May 1922 he was given direct control of the Sanitation Department and full financial powers over the budget.

Bhopal Agency.—The Agency Surgeon visited almost all the dispensaries in the Agency and found them all doing good work. There was nothing noteworthy except the closing of nine dispensaries by the Bhopal Durbar mentioned above.

Malwa Agency.—The medical institutions in this Agency have done satisfactory work during the year.

Southern States Agency.—The medical institutions in this Agency continued to do good work during the year.

II.—Personal.

Lieutenant-Colonel W. R. Battye, D.S.O., I.M.S., was the Administrative Medical Officer in Central India from 1st January 1922 to 27th July 1922, when he proceeded to England on six months and fourteen days leave and during his absence, Lieutenant-Colonel C. B. McConaghy, M.B., I.M.S., took charge of the appointment. During the absence of the former on leave the office was temporarily moved to Sehore.

The following Commissioned Medical Officers held charge in the various agencies :—

Name of		Period on duty.	
Appointments.	Incumbents.	From	To
1. Residency Surgeon, Indore .	Lieutenant-Colonel G. D. Franklin, O.B.E., I.M.S.	1st January 1922.	15th February 1922.
	Lieutenant-Colonel W. R Battye, D.S.O., I.M.S.	16th February 1922.	26th July 1922.
	Lieutenant-Colonel G. D. Franklin, O.B.E., I.M.S.	27th July 1922	31st December 1922.
2. Agency Surgeon in Bhopal, Sehore.	Lieutenant-Colonel C. B. McConaghy, M.B., I.M.S.	1st January 1922.	31st December 1922.
3. Agency Surgeon in Bundelkhand, Nowgong.	Lieutenant-Colonel J. R. J. Ty rell, M.B., I.M.S.	1st January 1922.	31st December 1922.
4. Agency Surgeon in the Southern States of Central India.	Lieutenant-Colonel W. R. Battye, D.S.O., I.M.S.	1st January 1922.	26th July 1922.
	Lieutenant-Colonel G D. Franklin, O.B.E., I.M.S.	27th July 1922	31st December 1922.

Lieutenant-Colonel G. D. Franklin, O.B.E., I.M.S., was absent on leave in England from 16th February to 26th July 1922.

There were 172 qualified medical men in Central India with qualifications as mentioned below :—

Indian Medical Service Officers	5
Graduates of Indian Universities	25
Mission Doctors	1
Sub-Assistant Surgeons	119
Private practitioners—	
Indian University Graduates	3
Sub-Assistant Surgeons	10
Lady Doctors—	
Mission	4
Indian University Graduates	3
Sub-Assistant Surgeons	2

In addition there were 89 senior compounders who held charge of small dispensaries in the districts.

III.—Financial.

The total sum expended by the Durbars on their medical institutions amounted to Rs. 7,11,994-11-1 and the expenditure incurred from Imperial Revenues amounted to Rs. 1,30,296-4-7 including pay of Agency Surgeons, the cost of upkeep of agency-hospitals and dispensaries and a grant of Rs. 17,000 to the King Edward Hospital, Indore.

The percentage of expenditure on medical services to total revenue in all the States of Central India is still extremely small. It varies from 1·1 per cent. in one State up to 5 per cent. in another. The smaller States in some cases appear to realize their responsibilities and true interests in this respect better than the larger ones. While one of the larger States spends only 1·6 per cent. of its revenue on its medical department, another small State spends nearly 5 per cent.

Not very much progress is to be hoped for until State authorities realize that their true interests lie in laying out a very much larger percentage of their revenues on a comprehensive preventive and curative health department in each case.

IV.—Sanitation—Vital Statistics.

The vital statistics that were prepared are not very reliable but they serve for making comparison from year to year. The figures for Rewa State and some other States of Baghelkhand Agency were not available.

The statement below shows the births registered during the past three years :—

Year.	Numbers.	Rate per 1,000 population.
1920	60,392	9·64
1921	71,113	11·86
1922	48,332	8·05

The following table gives the variations in figures for the principal States in Central India :—

States.	Population.	Births.	Rate per mille.
Indore	1,151,578	13,604	11·8
Bhopal	692,448	12,494	18·0
Orchha	284,948	Figures not received.	
Panna	197,600	2,105	10·6

The deaths recorded in the principal States in Central India for the past four years were :—

States.	1919.	1920.	1921.	1922.
Indore	15,512	12,519	12,990	12,727
Bhopal	16,814	13,833	9,558	9,153
Orchha	5,662	3,320	4,378	Figures not received.
Panna	12,767	2,723	2,840	1,446

The deaths for the whole of Central India for the past four years have been :—

1919	238,494
1920	58,156
1921	58,914
1922	51,032

V.—Vaccination.

During the year 1922-23 the number of vaccinations done was 146,396 against 141,164 done in the year before. Of these 143,871 were returned as primary and 2,525 as secondary.

One hundred and eighty-eight vaccinators were employed during the year 1922-23.

Lymph was obtained from various centres. The lymph prepared at Manpur in the Southern States Agency was distributed as before to the various States and Agencies in Central India at a comparatively small cost. It had given good results.

VI.—Epidemics.

A. Cholera.—The Central India Agency remained free from cholera during 1922.

B. Plague.—Plague was rather of a severe type during the year 1922 and caused 1,019 attacks and 747 deaths. The bulk of these occurred in Rewa State and Bundelkhand. It was for the first time that the plague appeared in Nowgong Cantonment. An interesting point in connection with the epidemic in some of the villages of Rewa State was the fact that the disease started among the Langur Monkeys. The table below gives the number of deaths reported in the year by months and agencies :—

Months.	Bundelkhand.	Baghelkhand (Rewa State).	Total.
January	...	...	...
February	...	54	54
March	...	114	114
April	...	80	80
May	...	...	...
June	...	...	...
July	...	...	...
August	...	...	...
September	64	63	127
October	127	20	147
November	52	19	71
December	32	122	154
Total .	275	472	747

The other agencies, *i.e.*, Indore, Bhopal, Malwa and Southern States remained free from this disease throughout the year.

C. Small-pox.—This accounted for only 155 attacks and 18 deaths, and bulk of which occurred in the first four months of the year in the Southern States of Central India, Neemuch and Mhow Cantonments.

D. Influenza.—This caused some anxiety in Indore Residency, Bundelkhand and Baghelkhand Agencies of Central India during the year. There were 2,448 seizures and 100 deaths. The places affected and the deaths reported from this disease were as below :—

	Deaths.
Indore	1
Bhopal Agency	3
Bundelkhand Agency	70
Baghelkhand Agency	21
Southern States Agency	5
	100

VII.—Lunatics and Lepers.

In Central India there is only one lunatic asylum in Indore City and it has accommodation for 12 patients. There were eight lunatics on the 1st of January 1922 and four new cases were admitted during the year 1922. Out of the twelve lunatics one died and one absconded, leaving ten at the end of the year. The so-called lunatic asylum is reported to continue in the same unsatisfactory state as for many years past, for want of proper attention on the part of the State. During the year under report Her Highness the Maharani Chandrawati Bai very kindly offered a large building at Banganga for this institution, but this could not be brought into use for want of the funds required to render it suitable for the purpose. The present building is not suitable for the accommodation of human beings. The State authorities however are trying to find funds for the improvement of the Asylum and it is hoped that it may in time become a well-managed institution.

There is accommodation for lepers in four asylums, *viz.*, Indore City, Barwani, Sehore and Dhar. The asylum at Indore City is maintained by the Indore Durbar and is also supervised by the State Officials; while in the case of the asylum at Sehore it is maintained by the Bhopal Durbar under the supervision of the Agency Surgeon in Bhopal. The junior Sub-Assistant Surgeon attached to the Agency Hospital at Sehore very often visits the asylum and treats the patients kept there. The Handerson Memorial Leper Asylum at Dhar is conducted under the supervision of a Mission Doctor and the Dhar State pays only Rs. 3 per mensem as a capitation fee for each patient. The asylum at Barwani is a new one.

The following table shows the numbers treated in three asylums and the cost incurred in maintaining them :—

Place.	Average number of inmates.	Cost per inmate per annum.
		Rs. A. P.
Bhopal (Sehore)	31·5	166 5 3
Indore	35	45 0 3
Dhar	Information not furnished.	
Barwani	1	21 12 0

VIII.—Jails.

Returns for the year 1922 were received from 33 jails and lock-ups in Central India. The population and the death-rate in the five large jails are shown in the following table:—

Place.	Average population.	Number of deaths.	Rate per mile.
1. Indore State Central Jail . . .	335·61	5	14·9
2. Bhopal State Central Jail . . .	449·08	21	46·8
3. Rewa Central Jail	333·37	36	107·9
4. Central India Agency Jail, Indore (Government)	123·44	...	...
5. Nowgong District Jail (Government) .	97·03	2	20·6

The following statement shows the death rates per mille for the past three years in the five large jails:—

Jails.	1920.	1921.	1922.
1. Indore State Central Jail . . .	68·5	53·6	14·9
2. Rewa State Central Jail . . .	78·5	158·0	107·9
3. Bhopal State Central Jail . . .	37·8	35·9	46·8
4. Central India Agency Jail, Indore (Government)	21·03	...	...
5 District Jail, Nowgong (Government)	99·3	30·5	20·6

IX.—The Victoria Memorial Scholarship Fund.

Under the auspices of this fund dhais and others are trained at Indore, and Bhopal where the number of pupils trained and the total expenditure incurred were as below:—

Place.	Pupils.	Total expenditure during the year.	Cost per pupil.
		Rs. A. P.	Rs. A. P.
Indore King Edward Hospital . .	21	1,325 0 6	63 3 10
Bhopal	6	577 7 0	8 0 4

X.—The King Edward Hospital Medical School, Indore.

There were 160 students in the Medical School on the 1st of January 1922 of whom 22 passed the final L. C. P. and S. examination (Bombay) and L. M. P. (Nagpur) after completing the course. Out of the failures who have studied up to the final and left this school two passed the final L. C. P. and S. (Bombay) and two have passed the final L. M. F. (Calcutta). During the year no new students have been admitted. Admission* was stopped pending a final decision as to the closing of this institution for lack of sufficient funds. On the 31st December 1922, 138 students were attending the school as detailed below:—

Fourth-year students	27
Third-year students	37
Second-year students	74
First-year students	...
Total	138

Their origin is as below:—

Central India States' Scholars	30
Rajputana States' Scholars	14
Kashmir State Scholars	7
Government Scholars	1
Private students	86
Total	138

XI.—

I have to thank my Head Clerk Mr. Shanker Rao Chavan for his able and willing co-operation in the work of the office and his assistance in the preparation of this report.

* Note.—The school was re-opened to admit new students on 1st July 1923.

W. R. BATTYE, *Lt.-Colonel,*
Administrative Medical Officer and Inspector-General of Prisons in Central India.

STATEMENT A.

Showing the number of dispensaries in the Central India Agency during the year 1922.
Population of the province 5,997,023.

Class of dispensary.	Number open on 31st December.	Number opened during the year.	Number closed during the year.	Number open on the last day of the year.	Remarks.
1	2	3	4	5	6
I.—State—Public . .	5	...	...	5	
II.—State—Special . .	196	3	3	196	
(*i*) Police . . .	1	...	...	1	
(*ii*) Forests and Surveys	...	...	...	...	
(*iii*) Canals . .	...	...	...	...	
(*iv*) Others . .	...	...	...	...	
III.—Local Fund . .	1	...	...	1	
IV.—Private aided . .	...	...	...	...	
V.—Private non-aided .	5	...	...	5	
VI.—Railway . . .	7	...	...	7	
Total .	215	3	3	215	

Classes I and II.—These include all institutions maintained by Provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions should not be regarded as a reason for not classing it as "State" so long as Provincial and Imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

Class III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine. or otherwise, should not be regarded as a reason for not classing it as a local fund dispensary so long as its existence is practically dependent upon local funds.

Class IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Class V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers should not be regarded as a reason for not treating it as a private non-aided dispensary.

Class VI.—Comprises all Railway dispensaries whether maintained by State railway agencies or others.

Notes.

1. Transfers of dispensaries from one class to another should be noted in the column of "Remarks."
2. Hospitals of the Dufferin Fund should be shown as private aided or non-aided, as the case may be.
3. Dispensaries of a purely itinerant character should in no case be included in the statement.

Annual Report on the Working of the Hospitals, Dispensaries, Jail Hospitals, and the Registration of Vital Statistics in the Central India Agency for the Year 1923 and on Vaccination for 1923-24.

I.—Medical Institutions.

1. The report deals with the following hospitals and dispensaries :—

(*a*) State (British) Public, including the agency hospitals and dispensaries	5
(*b*) State (Native State) Public, including hospitals and dispensaries belonging to the Durbars in Central India	195
(*c*) State (British) Special, the Malwa Bhil Corps Hospital, Indore	1
(*d*) Local Fund, the King Edward Hospital, Indore	1
(*e*) Private non-aided, the hospitals and dispensaries belonging to the Canadian Presbyterian Mission	5
(*f*) Railway dispensaries belonging to the Great Indian Peninsula Railway and the Bombay, Baroda and Central India Railway	7

During the year 1923 one travelling dispensary was opened by the Bhopal State. Besides this the following dispensaries have been opened during the year 1923, but mention has not been made of these in the statistical returns received from their respective Durbars :—

(1) Ungraded and aided dispensary at Kampel, a jagir village in the Indore State.

(2) One new dispensary in the Charkhari State.

(3) Baghaun dispensary in Rewa State.

(4) One travelling dispensary in charge of a Sub-Assistant Surgeon in Rewa State. It visited 13 villages in the eastern part of Rewa State.

The Bhopal Durbar have closed the Ashfia female dispensary, but it is included in the returns as the patients treated during the part of the year 1923 were shown therein.

The following dispensaries which existed last year have not been mentioned in the returns furnished for the year 1923 by the Durbars concerned.

Rewa Jail—Rewa State—Baghelkhand Agency.

Newali—Barwani State—Southern States Agency.

Thus the total number of hospitals and dispensaries in Central India, excluding the dispensaries for which the returns have not been received, was 214 compared with 215 in the previous year.

2. The more important structural improvements made during the year are as below :—

Indore State.—Two kitchen sheds and two rooms have been added to Maharaja Tukojirao Hospital, Indore City, from the charity fund received from middle class people.

Baghelkhand Agency.—The operating theatre of the Victoria Hospital, Rewa, has been practically rebuilt on modern lines and has been completely equipped with modern operation room furniture.

Four wards for the accommodation of in-patients have been built in Beohari Dispensary.

A special building has been erected at Rewa for the manufacture of vaccine lymph which was before manufactured at Sutna.

Bhopal Agency.—Repairs were made to the quarters of the Sub-Assistant Surgeon attached to Rajgarh Hospital. An operation room has been reconstructed in the Biaora Hospital belonging to the Rajgarh State.

Petty repairs were carried out to the dispensary building in Khilchipur.

Bundelkhand Agency.—The State Hospital building at Charkhari has been improved.

Southern States Agency.—The Maternity Home in the King Edward Memorial Hospital, Dhar, was declared open for the admission of confinement cases from the families of State officials.

The hospital buildings including the Sub-Assistant Surgeon's quarters at Anjar in Barwani State were repaired. In the Alirajpur Dispensary ordinary repairs were carried out during the rains and cold season and a portion of the infectious ward was newly built as it had fallen down.

Malwa Agency.—A new store-room has been constructed in the Dewas State, Senior Branch, Hospital. Some additions and repairs were made in the Alote Dispensary belonging to Dewas State, Senior Branch.

The paving of the family wards in the Dewas State Hospital, Junior Branch, has been done.

3. *Patients treated.*—The total number of patients treated during the year was 1,654,509 as against 1,579,696 of the year, *i.e.*, an increase of 74,813.

In-patients number 20,035 compared with 20,826 of the previous year.

The number of operations performed was 63,368 compared with 59,554 in the year 1922 and 50,592 in the year 1921.

4. *Prevailing diseases.*—These were the same as during the previous years: the number recorded under the six principal heads were as follow:—

Malaria	295,000
Eye diseases	263,518
Skin diseases	164,393
Disorders of digestive system	139,656
Ulcers	115,559
Rheumatic affections	44,709

For syphilis the in-door patients numbered 605 against 603 of the previous year and out-door patients were 9,581 as compared with 9,527 in 1922.

The tuberculosis figures were 582 admissions and 2,860 out-patients against 592 and 2,671 respectively of the previous year.

5. *Outstanding features of the medical institutions—King Edward Hospital, Indore.*—This institution continued to do good work as before in all its departments. Money is still required to bring the hospital up to the standard of a modern hospital. This applies not only to the buildings and equipment, etc., but to facilities for the care of patients particularly with regard to nursing. A great deal of work has been and is done in this hospital and with the wealth of clinical material there is much scope; but the lack of money hampers the institution in many ways.

Indore State.—The Indore State Medical Department continued to make good progress; particularly it was so in the following:—

Obstetric and Gynaecological.—Normal and abnormal cases numbered 301 and 21, respectively, and the number of Gynaecological operations performed was 218.

Electric and Radium treatment.—The number of patients treated by this has been 1,075 during 1923 against 924 in 1922. Patients come from long distance to receive this treatment, as this is the only institution of the sort which can afford help to the middle and lower classes.

Clinical Laboratory.—The total number of samples of urine examined chemically during 1923 was 1,454 against 1,336 in the previous year. The total number of samples of blood, sputum, faeces and other discharges examined was 965, which also included the number of reactions undertaken for typhoid, para-typhoid and syphilis. The total number of Von-Pirquet reaction and T. R. injection including the number of other ante-vaccine injections was 730.

Rao Sanetorium.—The number of patients admitted during the year was 52 against 50 in 1922 with the following results :—

Cured	8
Relieved	6
Left	29
Died	2
Remaining	7

Bundelkhand and Baghelkhand Agencies.—On the whole the dispensaries maintained from general revenues, as well as by the Native States, continued in good condition and suitable for the work being carried out in them. The Agency Surgeon visited most of the dispensaries in both the Agencies and found that the quantity of work done continues to be satisfactory.

Major C. H. Smith, O.B.E., I.M.S., remained in charge of the Medical and Sanitation Department of the Rewa State throughout the year. In addition to his frequent visits to the Victoria Hospital, the Police, Military and Zenana Hospitals in Rewa town, he paid visits to the nine dispensaries in the districts of the Rewa State.

Bhopal Agency.—The Agency Surgeon visited almost all the dispensaries in the Agency and found them all doing good work.

Malwa Agency.—The medical institutions in this Agency have done satisfactory work during the year.

Southern States Agency.—The medical institutions in this Agency continued to do good work during the year.

II.—Personal.

Lieutenant-Colonel W. R. Battye, D.S.O., I.M.S., was the Administrative Medical Officer in Central India from the 12th February 1923 to 31st December 1923. Lieutenant-Colonel C. B. McConaghy, M.B, I.M.S., held the officiating charge of this appointment from 1st January 1923 to 11th February 1923, during which period Lieutenant-Colonel W. R. Battye, D.S.O., I.M.S., was absent on leave in England.

The following commissioned Medical Officers held charge in the various agencies :—

Name of		Period on Duty.	
Appointments.	Incumbents.	From	To
1. Residency Surgeon, Indore	Lieutenant-Colonel G. D. Franklin, O.B.E., I.M.S.	1st January 1923	2nd March 1923.
	Lieutenant-Colonel W. R. Battye, D.S.O., I.M.S.	3rd March 1923	31st December 1923.
2. Agency Surgeon in Bhopal	Lieutenant-Colonel C. B. McConaghy, M.B., I.M.S.	1st January 1923	31st December 1923.
3. Agency Surgeon in Bundelkhand	Lieutenant-Colonel J. R. J. Tyrrell, M.B., I.M.S.	1st January 1923	31st December 1923.
4. Agency Surgeon in Southern States of Central India	Lieutenant-Colonel G. D. Franklin, O.B.E., I.M.S.	1st January 1923	11th February 1923.
	Lieutenant-Colonel W. R. Battye, D.S.O., I.M.S.	12th February 1923	31st March 1923.

Lieutenant-Colonel G. D. Franklin, O.B.E., I.M.S., was transferred to Ajmer as officiating Chief Medical Officer in Rajputana on the 3rd March 1923.

Owing to reorganisation and retrenchments in the Medical Department of Central India, the appointment of Agency Surgeon in the Southern States of Central India was absorbed and amalgamated with that of the Residency Surgeon, Indore, and Administrative Medical Officer in Central India with effect from the 1st April 1923. Prior to 1st April 1923 these two appointments were held by two Indian Medical Service officers, but now the appointment is held by a single Indian Medical Service officer. In consequence of the abolition of the post of one Indian Medical Service officer, a new post of "Assistant Residency Surgeon, Indore, and Personal Assistant to the Administrative Medical Officer in Central India" was created with effect from the 1st April 1923 and Assistant Surgeon Khan Bahadur Ahmad Buksh was appointed to fill it from the same date.

There were 206 qualified medical men in Central India with qualifications as mentioned below :—

Indian Medical Service officers	4
Graduates of Indian Universities	27
Mission Doctors	6
Sub-Assistant Surgeons	146
Private practitioners—	
Indian University Graduates	4
Sub-Assistant Surgeons	13
Lady Doctors—	
Indian University Graduates and Sub-Assistant Surgeons	6

In addition, there were 78 senior compounders who held charge of small dispensaries in the districts.

III.—Financial.

The total sum expended by the Durbars on their medical institutions amounted to Rs. 8,08,898-0-4 and the expenditure incurred from Imperial Revenues amounted to Rs. 1,40,762-12-2 including the pay of Agency Surgeons, the cost of upkeep of agency hospitals and dispensaries and a grant of Rs. 17,000 to the King Edward Hospital, Indore.

The percentage of expenditure on medical services to total revenue in all the States of Central India is still extremely small. It varies from ·53 per cent. in one State up to 5·33 per cent. in another. The smaller States in some cases appear to realize their responsibilities and true interests in this respect better than the larger ones. While one of the larger States spends only 1·6 per cent. of its revenue on its medical department, another small State spends nearly 5·33 per cent.

Not very much progress is to be hoped for until State authorities realize that their true interests lie in laying out a very much larger percentage of their revenues on a comprehensive preventive and curative health department in each case.

IV.—Sanitation—Vital Statistics.

The vital statistics that have been prepared are not very reliable, but they serve for making comparisons from year to year.

The statement below shows the births registered during the past three years :—

Year.	Numbers.	Rate per 1,000 population.
1921	71,113	11·86
1922	48,332	8·05
1923	77,524	12·92

The following table gives the variation in figures for the principal States in Central India :—

States.	Population.	Births.	Rate per mile.
Indore	1,151,578	14,766	12·8
Bhopal	692,448	17,414	25·1
Orchha	284,948	6,657	23·4
Panna	197,600	2,466	12·5

The deaths recorded in the principal States in Central India for the past four years were :—

States.	1920.	1921.	1922.	1923.
Indore	12,519	12,990	12,727	8,878
Bhopal	13,833	9,558	9,153	10,517
Orchha	3,320	4,378	Figures not received.	4,455
Panna	2,723	2,840	1,446	1,571

The deaths for the whole of Central India for the past four years have been :—

1920	58,156
1921	58,914
1922	51,032
1923	55,168

V.—Vaccination.

During the year 1923-24 the number of vaccinations done was 141,721 against 146,396 done in the year before. Of these 140,229 were returned as primary and 1,492 as secondary.

One hundred and sixty-five vaccinators were employed during the year 1923-24.

Lymph was obtained from various centres. The lymph prepared at Manpur in the Southern States Agency was distributed as before to the various States and Agencies in Central India at a comparatively small cost. It gave good results.

VI.—Epidemics.

A. *Cholera.*—The Central India Agency remained free from cholera during 1922, but the total number of cases reported from cholera during 1923 was 77 with 62 deaths The deaths reported were from Bundelkhand and Baghelkhand Agencies as detailed below :—

	Bundelkhand. Deaths.	Baghelkhand. Deaths.
February	...	1
March	...	1
April	35	13
May	12	...
	47	15

B. *Plague.*—The total number of cases reported from plague was 584 with 510 deaths compared with 1,019 attacks and 747 deaths which occurred in the year 1922. The table below gives the number of deaths reported in the year by months and agencies :—

Months.	Bundelkhand.	Baghelkhand.	Total.
January	...	95	95
February	...	88	88
March	23	150	173
April	66	23	89
May	...	14	14
June	...	...	...
July	...	...	...
August	...	...	...
September	...	...	...
October	...	18	18
November	...	10	10
December	...	23	23
TOTAL	89	421	510

With the exception of the two agencies mentioned above the remaining part of Central India was free from this disease.

C. *Small-pox* — This accounted for only 547 attacks and 62 deaths, the bulk of which were reported from Indore Residency, Bhopal State and Neemuch Cantonment.

D. *Influenza.*—This caused a little anxiety in Indore Residency, Bundelkhand and Baghelkhand Agencies of Central India during the year. There were 574 seizures and 17 deaths. The places affected and the deaths reported from this disease were as below :—

	Deaths.
Indore	...
Bundelkhand	7
Baghelkhand	10
	17

VII.—LUNATICS AND LEPERS.

In Central India there is only one lunatic asylum in Indore City. There were ten lunatics on the 1st of January 1923 and three new cases were admitted during the year 1923. Out of the thirteen lunatics three died and two were discharged, leaving eight at the end of the year. This Asylum has been shifted to Banganga in a more spacious and comfortable house.

There was an increasing demand for the admission of more lunatics in the Asylum, but as it was formerly located in a building having very poor accommodation consisting of eight rooms, the admissions hitherto made had been very limited; but since the Asylum has been moved to a large building it may serve the purpose better.

There is accommodation for lepers in three Asylums, *viz*, Indore City, Sehore and Dhar. The Asylum at Indore City is maintained by the Indore Durbar and is also supervised by State officials; while in the case of the Asylum at Sehore it is maintained by the Bhopal Durbar under the supervision of the Agency Surgeon in Bhopal. The Junior Sub-Assistant Surgeon attached to the Agency Hospital at Sehore regularly visits the Asylum and treats the patients there. The Henderson Memorial Leper Asylum at Dhar is conducted under the supervision of a Mission Doctor and the Dhar State paid Rs. 510 as capitation fees towards the maintenance of lepers belonging to Dhar State during the year 1923.

The following table shows the numbers treated in three Asylums and the cost incurred in maintaining them :—

Place.	Average number of inmates.	Cost per inmate per annum.
		Rs. A. P.
Bhopal (Sehore)	27·75	140 9 1
Indore	20	72 11 1
Dhar	18	124 2 8

VIII.—Jails.

Returns for the year 1923 were received from 35 jails and lock-ups in Central India. The population and death-rate in the five large jails are shown in the following table :—

Place.	Average population.	Number of deaths.	Rate per mille.
1. Indore State Central Jail	335·61	6	17·9
2. Bhopal State Central Jail	441·46	12	27·2
3. Rewa State Central Jail	211·37	12	56·7
4. Central India Agency Jail, Indore (Government) .	120·964	3	24·8
5. Nowgong District Jail (Government) . . .	91·88	1	10·9

The following statement shows the death-rates per mille for the past three years in the five large jails :—

Jails.	1921.	1922.	1923.
1. Indore State Central Jail	53·6	14·9	17·9
2. Bhopal State Central Jail	35·9	46·8	27·2
3. Rewa State Central Jail	158·0	107·9	56·7
4. Central India Agency Jail, Indore (Government) .	...	...	24·8
5. District Jail, Nowgong (Government) . . .	30·5	20·6	10·9

IX.—The Victoria Memorial Scholarship Fund.

Under the auspices of this fund dhais and others are trained at Indore and Bhopal, where the number of pupils trained and the total expenditure incurred were as below :—

Place.	Pupils.	Total expenditure during the year.	Cost per pupil.
		Rs. A. P.	Rs. A. P.
Indore King Edward Hospital . . .	22	1,468 5 7	66 11 10
Bhopal	2	568 4 8	284 2 4

X.—The King Edward Hospital Medical School, Indore.

There were 138 students in the Medical School on the 1st of January 1923, of whom 20 passed the final L. C. P and S. Examination (Bombay) and L. M. P. (Nagpur) after completing the course and one died. In April 1923 the Managing Committee of the King Edward Hospital and Medical School decided that a fresh determined effort must be made to keep the school open and carry it on. In pursuance of this policy it decided further to make a fresh appeal for funds and to raise the tuition fees and admit fresh students. Consequently 42 new students were admitted in June and July 1923 and 50 new students in October 1923; and three have left the school. Thus on the 31st December 1923, 206 students were attending the School as detailed below :—

Fourth year students	51
Third year students	54
Second year students	12
First year students	89
Total	206

Their origin was as below :—

Central India States' scholars	24
Gwalior States' scholars	8
Rajputana States' scholars	10
Kashmir State scholars	4
Government scholar	1
Private students	159
Total	206

The European Infantry barracks were converted into hostels to accommodate about 130 students, with good kitchens, bath houses, etc. These barracks have been lent to the King Edward Hospital Medical School by the Local Government on the understanding that all the cost of maintenance be borne by the Medical School and that the buildings be vacated and restored to their original condition if again so required by the military authorities. As the hostels are at some distance from the Bazaars a general supply stores in the main hostel has been opened to supply groceries and other requisites of good quality at reduced prices to the students close to their kitchens and quarters.

The Central India and Rajputana blocks, being delapidated and pronounced dangerous, were vacated and the students transferred to the new hostels. Steps have since been taken for the renovation and repairs of these two blocks.

Owing to the steady increase in the number of students it has become necessary to consider means for making additions in the accommodation, equipment and the teaching staff.

XI.

I have to thank my Head Clerk, Mr. Shanker Rao Chavan, for his able and willing co-operation in the work of the office and his assistance in the preparation of this report.

W. R. BATTYE, *Lieut.-Colonel,*
Administrative Medical Officer and
Inspector General of Prisons
in Central India.

XI-2-870

STATEMENT A.

Showing the number of dispensaries in the Central India Agency during the year 1923.

Population of the province—5,997,023.

Class of dispensary.	Number open on 31st December.	Number opened during the year.	Number closed during the year.	Number open on the last day of the year.	Remarks.
1	2	3	4	5	6
I.—State—Public .	5	...	...	5	
II.—State—Special . .	196	1	2	195	
(*i*) Police . . .	1	..	...	1	
(*ii*) Forest and Surveys .	...	...	...	...	
(*iii*) Canals . . .	...	...	...	...	
(*iv*) Others . . .	...	...	...	...	
III.—Local Fund . . .	1	...	...	1	
IV.—Private-aided . .	...	...	...	...	
V.—Private non-aided . .	5	...	...	5	
VI.—Railway . . .	7	...	...	7	
Total .	215	1	2	214	

Classes I and II.—These include all institutions maintained by provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions should not be regarded as a reason for not classing it as "State" so long as provincial and imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State dispensaries which are open to the poorer classes of the public. Class II are State dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

Class III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, should not be regarded as a reason for not classing it as a local fund dispensary so long as its existence is practically dependent upon local funds.

Class IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Class V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers should not be regarded as a reason for not treating it as a private non-aided dispensary.

Class VI.—Comprises all railway dispensaries whether maintained by State, railways or others.

NOTES.

1. Transfers of dispensaries from one class to another should be noted in the column of "Remarks".
2. Hospitals of the Dufferin Fund should be shown as private-aided or non-aided, as the case may be.
3. Dispensaries of a purely itinerant character should in no case be included in the statement.
